

Surgical Technologist

The Surgical Technology program, is an integral unit of the Health Sciences and Human Services department of the College of Southern Idaho. The program educates the student to assist the surgical team to become a vital member of the multidisciplinary healthcare workforce. Professionalism, teamwork, communications and medical language are stressed as students learn to pursue or maintain job opportunities in surgical technology.

Program Goals:

- To prepare entry-level Surgical Technologists who are competent in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains to enter the profession.
- Qualify for national certification testing for surgical technology
- Demonstrate compliance with the criteria set forth in the most current standards and guidelines for an accredited educational program in surgical technology.

Admittance Requirements:

- The Surgical Technology program application and dates can be found on the website: <https://www.csi.edu/programs/surgical-technology/admission-steps.aspx>
